

Limit Switch Test & Details

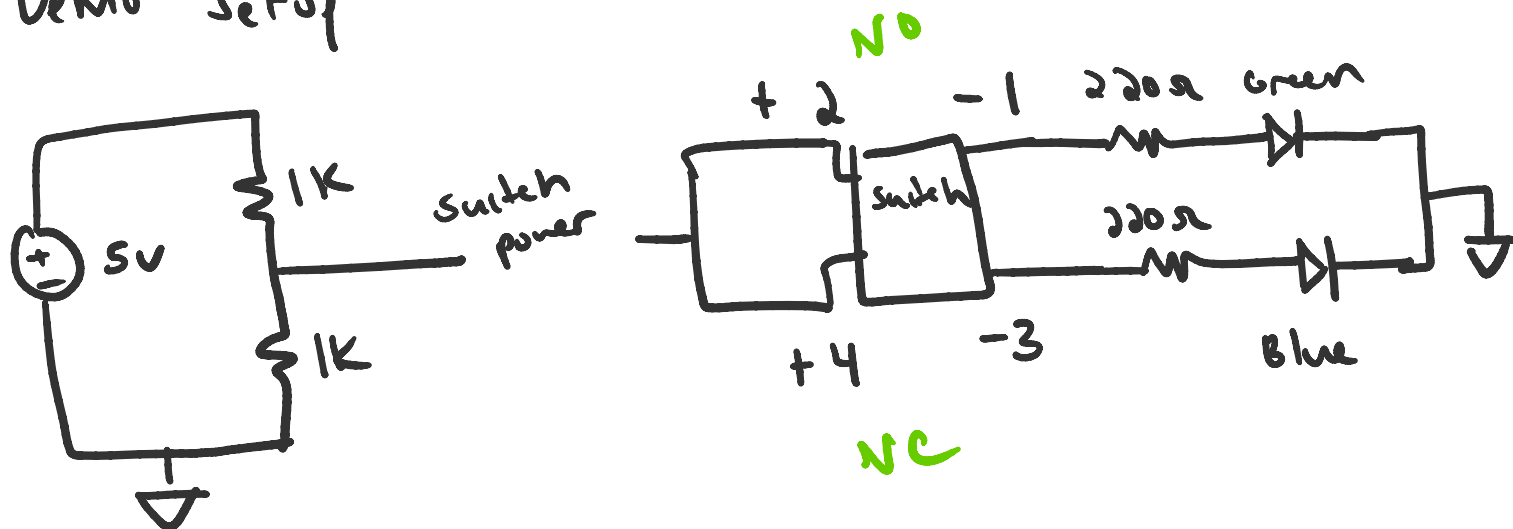

Monday, March 28, 2022 4:21 PM

NO: Triggered position

NC: Default position

Demo setup

What happens: Green LED will be on by default and remain on while the switch is not touched. Once the switch is triggered in either direction (you will hear click), the blue LED will turn on.

RATINGS:

250 V

5.0 A

DPDT (double pole double throw) switch type
